## Planning Pays Off

### Chlorine Gas Cloud Friday Night Forces Grayling Evacuation

Grayling last Friday night got a small taste of what a "fall-out" attack might be like in this country. A missile attack on the town of Grayling, Michigan, was simulated by a chlorine gas cloud which drifted from the south-southwest corner of the town.

The Grayling Chemical Company warehouse on Grayling's south edge covered the south-southwest corner of the town. Plans were made in conjunction with the Crawford County Sheriff's Department about two years ago for evacuation of various parts of the city if a fire should hit the chemical dump. The plan called for various plans depending on the direction of the wind at the time of a blast.

When the fire broke out Friday night, the plan was put into action by Chief Hatfield and Chief Casar. Over 200 citizens spent the night in the Grayling High gym while many others spent Friday night with relatives and friends in other parts of the city and in the immediate area.

The Separate Detachment of the Michigan National Guard at Camp Grayling under the command of Captain Edmund Rutkowski assisted in the evacuation exercise and also trucked in cots and mattresses to the school gym to give those driven from their homes a place to sleep.

A 10-mile an hour wind early Saturday morning dispersed the cloud of chemical gases and Grayling citizens were allowed to return to their homes although instructed to completely air them out.

The 60 to 180 foot cinder block building constructed by Millikin Construction Company some years ago for the use of the Henderson Supply Company was a complete loss. Total loss was set at about \$75,000 by the Haviland Company who now occupy the structure.

Cause of the blast was not fully determined but was thought to have been a faulty heating furnace. John Giocco, state police fire marshal's division from Traverse City, said much trouble and sickness was avoided by the quick work of evacuation of the people involved.

At the height of the conflagration, small explosions punctuated the fire as various boxes, barrels and glass containers of chemicals exploded.

The Grayling Mercy Hospital was in a direct line with the acid-smelling fumes but rather than take patients from the building, all windows were taped as well as other entrances and the air conditioner was turned on. No incidents were reported there.

State Police of both the Grayling and Houghton Lake Posts were also on hand to lend aid in what was a wild night in Grayling and one that those involved will not forget for some time.

However, on the good side, if there can be a lesson learned from this, the evacuation plan worked, which showed that civil defense planning has its place and is of definite value.

City Manager Harold S. Cliff was high in praise of the City's police and fire department personnel and also issued a "thank you" to the auxiliary police who served without compensation, the Grayling Fire Department and National Guardsmen. He also stated that many citizens aided in various ways last Friday night and should also know that their help is deeply appreciated.

## Frederic Drops Four Games

The Frederic varsity, junior varsity, and girls teams all dropped games to Central Lake last week. Last Friday night at Central Lake, the varsity lost by a 59 to 46 score. The host team held a 32 to 23 half time edge.

Poor foul shooting with only 8 out of 18 and poor offensive rebounding spelled defeat for the Eagles. Central Lake stayed in front by ten points during most of the second half. At one point, Frederic shaved the lead to 8 but that was as close as they came.

Redman turned in 12 rebounds and Wilson 11. Redman also led the scoring with 17, Midkiff 10, Armstrong 7, Wilson 6, Harmer 4, and Beards 3.

The reserves dropped the curtain raiser at Central Lake Friday night by a 35 to 22 score. The little Eagles played the Central Lake jayvees neck and neck until the final quarter when they were outscored 7 to 1.

On Wednesday at Frederic, the Central Lake junior high team which is as big as most high school teams from the area, defeated the Frederic girls 38 to 9. Lozon had 2 points, Lodge 2 and Welch 5 in the girls game.

For a good damask cloth, center slot for this week. They will entertain the varsity and reserves from McBain Christian at the Frederic gym on Tuesday night. Following those games, the Frederic varsity and junior high will travel to Ellsworth on Wednesday, February 14th.

## Vikings Win, In Second Place All Alone

The Grayling Vikings, playing one of the best games they have shown thus far this year, turned back the Boyne City Ramblers at the Grayling High School Friday night by a 52 to 43 score and took over sole possession of second place in the Northern Class C Conference basketball race.

In other conference action last Friday night, Chazyix topped Gaylord 61 to 49. Harbor Springs stopped Manclona from 71 to 53 and the front running Pellston Hornets bombed the East Jordan Red Devils 71 to 32.

This Friday night, the Vikings traveled to East Jordan to take on the Red Devils and according to season play so far, the green and white should have little trouble. However, East Jordan has proven in the past that she can give the Vikings plenty of trouble.

When on her home floor Coach Bruce Smith's charges will have to play top ball to bring home a victory and stay in the race for the crown.

Friday night, Grayling trailed 27 to 26 at halftime. They edged out a little more to 35 to 32 at the end of the third frame and came up with a 17 to 9 fourth quarter to close the game on the Ramblers.

Grayling scored on 20 field goals and 12 foul shots while Boyne City hit from the field 18 times and added 5 free throws. Grayling was called for nine personal fouls and the visiting Ramblers for 13.

Tim Neal with 18 points and Chris Kroll with 12 were both in the double figures for Grayling. Tim Whyte added 11 points. Johnson 7 and Sherman Neal 6. Gunderson with 14 was high for Boyne.

The little Vikings came up with a thriller too as they downed the Boyne City jayvees by the close score of 28 to 26. Starting off behind on a 8 to 2 count at the end of the first frame, the Gray reserves came part way back to a 11 to 6 score against them at intermission time. In the third period, they edged a little closer on a 12 to 10 score to make the total 21 to 18 against as the final quarter opened. The little Vikings came up with a big 10 to 5 last period to win.

Jim Young with 10 points was high for Grayling with Gary Lucksted adding 5. Bill Joseph 4, Steve Dawson 3, Eddie Robertson and Danny Feldhauser 2 each and Michael Smith, a four shot. Dwyer with 7 was high for Boyne City.

### Food, Cars Take 62% Of Dollar In County

NEW YORK, Jan. 29 — Retail business in Crawford County was at a high level in the past fiscal year as local consumers, despite the unemployment that prevailed, spent freely for basic goods and services.

Not all retail lines fared equally. Gains were registered by some and not by others because of a highly selective buying attitude shown by shoppers.

The new pattern that their spending has been taking reflects, to a degree, changes that have been observed in most parts of the nation. The Department of Commerce reports that the consumer today is spending 7 per cent more on services than he did in 1958, 2 per cent less on durable goods and 5 per cent less on non-durables. His overall outlay, however, is much greater.

In Crawford County, local residents spent 22 per cent of their retail dollar for food and for automotive equipment and supplies in the past year. The total was \$4,433,000.

The figures are contained in the recent survey made by the Standard Rate and Data Service.

## Do You Know This Man? . . .

A reader has sent us the following word picture of a twentieth century American:

A young man lived with his parents in a public housing development. He attended public school, rode the free school bus, and participated in the free lunch program. He entered the army, then upon discharge retained his national service insurance. He then enrolled in the state university, working part time in the state capital to supplement his GI education check.

Upon graduation he married a public health nurse and bought a farm with an FHA loan; and then obtained an R.F.C. loan to go into business. A baby was born in the county hospital. He bought a ranch with the aid of the veterans' land program and obtained emergency feed from the government.

Later he put part of his land in the soil bank, and the payments soon paid off his farm and ranch. His father and mother lived very comfortably on the ranch on their social security and old-age assistance checks. REA lines supplied electricity; the government helped clear his land.

The county agent showed him how to terrace it; then the government built him a fish pond and stocked it with fish. The government guaranteed him a sale for his farm products at highest prices.

Books from the public library were delivered to his door. He banked money which a government agency insured. His children grew up, entered public schools, ate free lunches, rode free school buses, played in public parks, swam in public pools, and joined the FFA. He owned an automobile so he favored the Federal high-

way program. He signed a petition seeking Federal assistance in developing an industrial project to help the economy of his area. He was a leader in obtaining the new post office and Federal building, and went to Washington with a group to ask the government to build a great dam costing millions so that the area could get "cheap electricity".

He petitioned the government to give the local air base to the county. He was also a leader in the movement to get his specific type of farming special tax write-offs and exemptions. Of course, he belonged to several farmers' organizations, but denied that they were pressure groups.

Then, one day, he wrote to his Congressman: "I wish to protest these excessive governmental expenditures and attendant high taxes. I believe in rugged individualism. I think people should stand on their own two feet without expecting handouts."

"I am opposed to all socialist trends, and I demand a return to the principles of our Constitution and the policies of States Rights."

Do you happen to know this man? — The Brookville American, Brookville, Pennsylvania.

## Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE FILES OF THE AVANCELANE OF 23 YEARS AGO

February 9, 1939

Probably what was the most colorful and jolly crowd ever to come to Grayling for winter sports was that of last Sunday. The noon train brought in 596 paid passengers from Flint, which was followed an hour later by the Detroit train with 725 passengers. And throughout the day autos were arriving in great numbers.

The decorations at the winter people are more beautiful this year than at any time in its history. There are hundreds of small Christmas trees throughout the grounds; arches are wound with cedar and the ice castle is the most classical ever presented. Last Sunday the latter was but about a third completed, still it awed the spectators by its grandeur. When completed, which will be this week, its color and lighting effects should prove wonderful. Near the entrance to the park, members of Hartwick Pine CCC camp are building a huge snowman.

Grayling Chamber of Commerce held a mass meeting Tuesday evening at Temple Theatre for the purpose of enabling the public to hear talks on the proposed electric plant for Grayling. President Harley Russell was in charge of the meeting and introduced the speakers. The first was Garrett M. Clark, city attorney of Zeeland, a city of about 2,500. A VanKovering, publisher of the Zeeland Record, told of how he at first was skeptical over the proposal to construct the municipal plant, and before he endorsed it, made a trip to Lansing in order to inspect the records in the offices of the Public Utilities Commission, and found that his

people had been paying far too much for their electric service.

Then he said he was convinced that a municipal plant was justified. Mr. Norris of the engineering firm of Ayers, Lewis, Norris and May, explained how that firm has secured its information regarding Grayling and based their opinion that Grayling should own and operate its own municipal light and power plant. He too answered many questions.

Some of the Boy Scouts' snowmen were made last Sunday when rowdies seemed to take delight in pushing them over or knocking off the heads. While some of the snowmen attempts were anything but good, still there are a number that show excellent taste and skill in construction.

Women's Athletics as low as 80c at Olson's Shoe Sale.

According to the Grayling Fish Hatchery report the temperature dropped considerably the last two days, going down to 8 above this morning, Thursday, at 5 o'clock. The first of the week looked as though we might have had real mild weather, the snow melting off the highway and dripping caves.

Mrs. Dan Babbitt and son Howard are spending several weeks in Potosky where Master Howard is under the care of Dr. G. E. Born, being treated for a heart ailment resulting from a recent case of scarlet fever.

Mr. John Bruun left Sunday night for New York, from where he will set sail February 9th for Copenhagen, Denmark. Mr. Bruun's mother is in poor health and he is making the trip to visit her.

Grayling friends of Mr. and Mrs.

## MORE VALENTINES

Mr. and Mrs. George Granger were hosts to some fourteen of their friends Saturday evening at their home. The evening was spent in a tournament of Chinese checkers, with Eugene Papendick winning for the gentlemen and Mrs. Harry Souder for the ladies. A Dutch lunch was served after the tournament.

Kirt Kitchen of Lansing was in Grayling Sunday calling on old friends.

Mrs. Chester Lozon and children of Maple Forest are spending this week visiting her sister, Miss Lillian Jordan.

One of the familiar faces to all from the Flint snow train Sunday was that of Mrs. Addison Lewis, who came up for winter sports and a visit with friends.

Mr. and Mrs. Walter Duerr of Detroit were guests of Mr. John Bruun Sunday. They were passengers on the Detroit snow train. Mr. and Mrs. Duerr and family have a summer home on Lake Margrethe.

Mrs. Charles Woodbury and daughter Mary Lou of Bay City left the first of the week for San Diego, Calif., to visit another daughter, Mrs. H. D. Krick, who resides there. They will be gone for two or three months.

Mrs. Kenneth Bobbitt and a party of seven friends of Detroit came to Grayling for the "snow train" Sunday. They were guests of Dr. and Mrs. C. R. Keyport and Miss Jayne Keyport. They were enthusiastic over winter sports.

Miss Wanda Cardinal left for Ann Arbor Tuesday where she has accepted a nursing position in the St. Joseph Mercy Hospital. Mrs. Claude Cardinal, Mrs. Vern Perry and Perry Wells accompanied her there and will spend a few days visiting relatives in Detroit and Pontiac.

Miss Mildred Hanson resumed her duties Tuesday at the Kerry & Hanson Flooring Co. offices after a few days' illness.

Frank Case, who has been employed as cook at the Plaza Grill for some time, has accepted employment as cook at the Top-O-Michigan restaurant in Grayling. He started his duties there Monday and Mrs. Case and son move there soon. Mr. and Mrs. Case are receiving congratulations on the birth of Terry Norton, a son born to them at their home Saturday.

Tuesday evening the Masons' Legionnaire pinocle tournament went into its fifth evening with the Legionnaires finishing far in the lead. It looks now as though the Legionnaires would win the tournament. Tuesday Wilfred Laurant and Jack McMillan held high score for the Legionnaires and Renown Hanson and George Hilton for the Masons. Next Wednesday evening all members of the Legion and Masons are urged to come and spend an evening, you'll enjoy it very much.

Eight little friends of Joan Thompson had a happy time at her birthday party Thursday afternoon, it being her eighth birthday. Indoor games were played, and Joan's mother served a delicious lunch.

46 YEARS AGO

February 10, 1916

Guy Peterson has resigned his position at the Sorenson Barber Shop and is now working on the F. H. Mills delivery wagon. Clarence Johnson returned to his duties at the DuPont Company in Bay City after spending several days visiting at his home here. A fine daughter was born to

Mr. and Mrs. L. A. McPeak on Thursday, February 8.

Miss Nellie Loss, assistant principal of the High School, was called to her home in Vassar Monday, and Mrs. T. P. Peterson is taking her place during her absence. Carl Sorenson has sold his barber shop in the Burton Hotel building to Sam Kastenholz, and the latter will take possession on Monday. At one time these gentlemen were associated in business in this shop, Mr. Kastenholz selling out to the former nearly a year ago. Mr. Sorenson will move to Detroit soon.

Ray Amidon during his vacation here is assisting in the Hathaway jewelry store, during the absence of Carlton Melstrup, who is confined to his home with an injury of the foot.

Miss Gertrude Foley of Luzerne has entered the eighth grade and is making her home with her uncle and aunt, Mr. and Mrs. O. Palmer.

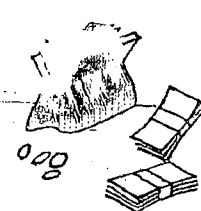

Thursday evening Miss Anna Fischer and Irving Hodge of Atlanta, two of Grayling's most popular young people, stole a march on their friends and went to the M. E. parsonage, where they were united in marriage by the Rev. Aaron Mitchell. The young couple left on the early morning train for the home of the groom's parents, where they will make their home for the present.

Friday evening a house owned by T. E. Douglas at Lovells and occupied by A. Gutchak was completely destroyed by fire and also all the contents.

C. W. Keuhl of Saginaw and Mr. Nash and son-in-law of Flint spent Saturday and Sunday at the Keuhl cabin. Mr. Nash is preparing to build a fine cottage in the early spring.

Misses Doris and Carrie La-Grow and Nellie Charlefour were hostesses to the Queen's Social club last evening at the Tetu home. The evening was spent in music and a unique guessing contest, with Miss Marie Foreman and Miss Agnes Mayo being the best guessers.

## TROOP FOUR

Because of illness and the ski program, we only had twelve girls present. At the Court of Honor meeting we went over the correct use of the patrol book. We had a brief discussion about our trip at the end of the year. Robin Patrol will be responsible for the games during February.

During our troop business meeting we ordered pins and any "lost items" needed for our investiture ceremony in March. We decided to begin work on our girl scout scrapbooks at our next meeting, with the troop treasury furnishing covers and paper needed. Many of the girls taking knitting

lessons at Mrs. Nellist's home on Wednesday nights are ready to begin with an article of clothing. When our business was concluded we played musical chairs, and ended our meeting with the friendship circle and a song.

Scribe, Terry Denewett; Leaders, Mrs. Nellist & Mrs. Johnson.

## TROOP II

February 5, 1962  
The meeting was started by working on the Minstrel Show we are going to perform in March. We sang some songs which we may use.

There were 18 members and one leader present.

We closed with the Friendship Circle and Taps.

# SCOUT TROOP 93 RECEIVES CHARTER

The Boy Scout Troop at Michelson Memorial church is now a reality. A charter was applied for December 23, 1961, and issued in January of 1962, chartering Troop 93, Paul Bunyan Council. As of January 30, there were 20 boys in the troop. February and March will bring additional boys into the troop from the Cub Pack, as they pass their 11th birthdays.

Under the leadership of Scoutmaster Skip Nellist and Assistant Scoutmaster Howard Brown, the troop has already had four meetings, held each Tuesday at 7 p. m. in the church dining room. The boys have made tie slides, activi-

ties themselves to doing "good turns" around town, and set up Patrol activities. They plan to take part in next Sunday's Winter Carnival parade, and to observe Scout Sunday, February 18th.

The Boy Scout Committee has Carroll Wert as Institutional Representative, Harvey Rowland as Chairman, and committee members Norman Johnson, Johannes Peterson, Howard Day and Rev. Alfred Fennell. Several of these men are also serving on the Pack Committee, insuring communication between the two groups.

The Troop received its charter from Men's Club President Hurl Deckrow at last Tuesday's meeting. Northland District Scout Officer Wesley Quandt of West Branch participated in the meeting also.

## OUR GANG

Our Gang met Thursday, February 1st, at the home of Mrs. Oscar Goss. There were 13 members present. Game prizes went to Eureka Stephan, Mrs. Hurl Deckrow, Mrs. Rudolph Feldhauser and Mrs. Goss. The birthday cake was made by Mrs. William Heric, and the penny prize won by Mrs. Hattie Mosher. The next meeting will take place February 15th at Mrs. Frank Serven's home.

# SCHOOL NEWSPAPER SHOWS GROWTH

The High School newspaper, GHS Highlight, is a much fatter paper in its last issue, and contains a variety of interesting and constructive material. On the newspaper staff this year are Irene Renaud, Editor; Pauline Millikin, Assistant Editor; Tom LaMotte, Sports Editor; Lynn Kneff, Society Editor; Jerry Wert, Production Manager; Marilyn Stamply, Business Manager; Linda Boone, Artist; Proof-readers Lynn Kneff, Mickey Doremire, Janet Wymann and Tom LaMotte; Typists, Jill Jones, Carol Millikin, Sue Stephan, Karen Atkinson, Bill Mosher and Richard Yoder; Headline writers, Jerold Lovely, Linda Boone and Jerry Wert; and reporters Gwen Davis, Bob Hale, Jack Jones, Marilyn Stamply, Glenda Schofield, Tom Pelton, Karen Bobemeyer, Norman Sorson, Nancy Stephan, Terry Wakeley and Bonnie Ward.

One of the Highlight's articles which was most interesting was that which welcomed 16-year-old Norbert Schulz to the school, explaining that and his family arrived in New York on October 8, 1960, from Germany. The article commented that "Due to the difference in school systems, there was some difficulty in fixing a schedule for him. He had already taken most of the subjects offered here at Grayling High School."

### The Folly Of Private Deals

As anyone who has tried will  
tell you, attempt-

F. C. Welsh

ing to sell your  
old car privately  
and then buying  
a new one with-  
out a trade can  
make you wish  
you with.

Here are some  
of the steps an  
owner must go through to ac-  
complish this complicated task:  
Firstly, he must advertise his  
car in a newspaper where he  
will find that his ad won't be-  
gin to compete with those of  
dealers. If he is lucky and it  
does get better results, then he  
must generally be forever on  
call waiting for the right pros-  
pect to come along.

When he does find a buyer,  
he must take real price assist-  
ance. Private buyers expect to  
buy from an individual for  
substantially less. That's usu-  
ally why they answer such ads  
in the first place. In addi-  
tion, the seller can offer no  
guarantees or service after de-  
livery and the buyer knows that  
all future faults, then he  
becomes his responsibility.

Since better than three quar-  
ters of all buyers have a car to  
trade, the chances are good that  
the buyer himself will have a  
car that will stand in the way  
of the deal. If the transaction  
passes this hurdle, then the  
problem of finance arises. A  
buyer better than 70% of all  
cars are sold on terms, and the  
chances are good that the pros-  
pective buyer will wish to buy  
this way.

It is to overcome all these  
problems, of course, that car  
dealers exist. You will be far-  
ther ahead if you find a repu-  
table one and trade your car  
with him. If you should deal  
with us, you will be availing  
yourself of honest treatment,  
reliable service and fair deal-  
ings as a matter of course.

## Between The Bookends

"REMBRANDT"  
By Gladys Schmitt

The story of Rembrandt's life  
is a great subject for the novelist,  
because of his development into  
one of the world's supreme paint-  
ers, which has spiritual signifi-

cance.

There is the theme of the talent-  
ed young man of humble back-  
ground who moves out of his class  
into precarious honor and wealth.  
There is the ill-advised marriage  
to the beautiful Saskia. There is  
the inevitable estrangement from  
his family, when those whose lives  
are bounded by the malt mill in  
the real world, his splendid pos-  
sessions and his aristocratic wife.  
There is the conflict in him after  
Saskia's death when he can no  
longer stifle his impulse to live  
again and take the servant girl,  
Hendrickje, as his mistress. There  
is the crushing humiliation of  
bankruptcy and dispossession  
which divides him from his sec-  
ond beloved and his children. And  
then there is the regeneration,  
first his reconciliation with the  
human race, and then in his last  
paintings a strange, other world  
fantasy, the ultimate insights into art.

Gladys Schmitt has accomplish-  
ed a work of art, conceived in  
light and written with justice.  
This is profound and creative fic-  
tion, a staid and beautiful  
contribution to the literature of  
our times.

The jacket painting is in the  
Kunsthistorisches Museum, Wien.  
This book is available at the  
Crawford County Library.

## Thomas Edison - Inventive Genius

This week—National Electrical Week—marks the 115th anniversary  
of the birth of Thomas A. Edison. During this week the whole nation pays  
tribute to this "electrical genius."

Edison brought electricity out of the laboratory and into practical  
use for the benefit of mankind. He worked untiringly to develop the first  
practical electric light bulb and the equipment needed to bring it into the  
homes of America. In addition, he discovered "Etheric Force" which gave us  
wireless telegraphy, and the "Edison Effect" which gave us the vacuum  
tube for radio, electronics and the fluorescent lamp. He gave us the  
pleasures of the phonograph, motion picture camera and projector, and the  
"talkies." To industry and transportation Edison gave the practical electric  
generator, the "universal" electric motor, the Edison alkaline storage battery,  
the "universal" stock ticker, the telephone transmitter, and microphone.

Vital as these "ends" are, the "means" Edison used to achieve them  
has even greater significance. His revolutionary example of systematic  
research (harnessing the combined efforts of an organized team of specialists)  
set the pattern for modern technological development.
